

HAMZA ASHFAQ

MERN Stack Developer | Full-Stack Web Developer

+92-334-6292062 • hamzaashfaq432@gmail.com • Faisalabad, Pakistan • [linkedin.com/in/hamza-ashfaq](https://www.linkedin.com/in/hamza-ashfaq)

PROFESSIONAL SUMMARY

Motivated MERN Stack Developer with 2+ years of hands-on experience in full-stack web development using MongoDB, Express.js, React.js, and Node.js. Skilled in building responsive, scalable web applications with RESTful APIs, component-based architecture, and state management using Redux. Proficient in JavaScript (ES6+), Git version control, and agile development workflows. Solved 100+ LeetCode problems demonstrating strong command of data structures and algorithms. Certified in Web and Mobile Application Development from SMIT. Seeking a junior developer or software engineer role at a software house or tech company in Pakistan.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend Development: React.js, Redux, Tailwind CSS, Responsive Web Design, Component-Based Architecture

Backend Development: Node.js, Express.js, RESTful API Development, Server-Side Rendering

Database: MongoDB, Mongoose ODM, Database Design

Tools & Workflow: Git, GitHub, VS Code, Postman, npm, REST API Testing

CS Fundamentals: Data Structures, Algorithms, Problem Solving (100+ LeetCode)

EDUCATION

Bachelor of Science in Computer Science (BSCS) | *Government College University Faisalabad (GCUF)*
Oct 2022 – Jun 2026

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Web Technologies, Object-Oriented Programming, Software Engineering
- Final semester — expected graduation June 2026

CERTIFICATIONS

Web & Mobile Application Development | *SMIT – Saylani Mass IT Training Program* Completed

- Completed intensive full-stack training covering MERN stack: MongoDB, Express.js, React.js, Node.js
- Trained in RESTful API development, responsive UI design, database integration, and deployment workflows
- Practical exposure to JavaScript ES6+, React component lifecycle, hooks, and state management

PROJECTS & PRACTICAL WORK

Full-Stack Web Application Development | *Personal / SMIT Training* 2023 – 2024

- Developed multiple full-stack web applications using React.js frontend and Node.js/Express.js backend
- Implemented user authentication, CRUD operations, and RESTful API integration with MongoDB databases
- Built responsive UIs using Tailwind CSS ensuring cross-browser compatibility and mobile-first design
- Managed source code using Git and GitHub following best practices for version control and collaboration

PROBLEM SOLVING

Competitive Programming & DSA | *LeetCode* 2023 – Present

- Solved 100+ algorithmic problems covering arrays, linked lists, trees, dynamic programming, and graphs
- Strong understanding of time and space complexity, algorithm optimization, and clean code practices
- Consistently practiced problem solving to prepare for technical interviews at software companies
